EXPERIENCE

Endgame | Summer 2018
Frontend Engineer Intern

Develop and integrate features for product (UI Component Library, styleguide features, API integration, etc.). Work with cross-team groups to design components. Collaborate in scrum environment to solve problems and fix bugs
(React, Redux/Redux-saga, Sass, yarn/webpack)

Simplot | Summer 2017
Digital Delivery Intern

Front-end/Back-end WebDev:
  - .NET/dotnet core
  - React/Angular/TypeScript
  - node.js (webpack, Gulp)
  - Cold Fusion (conversions to .NET)
Test Cases:
  - Unit tests (XUnit)
  - JS validation (protractor.js/Jasmine)

Sharelift | 2016-2017
Mobile App Dev

Develop and add features (Google Maps API integration, distance and time estimation into routing api, rider-side user requests). Collaborate with team to solve problems and fix bugs. Ride share startup, fast paced environment, remote team.
(JavaScript, AngularJS, MeteorJS)

CSU Advancement Center | 2016
Design Intern

Create branding for university funds and projects. Design brand templates, work within large-scale time-sensitive project groups, develop unique donor pledge form
(Photoshop/InDesign/Illustrator)

Two Birds LLC | 2014-2015
Project Lead

Student incubated and kicked started design agency:
  - Proposal drafting
  - Video production (Youtube, Ad Spots, Presentations)
  - Plan/Scope project
  - Web, Logo, and Brand design
  - Leadership role: Manage team, recruit/train team members, sat on incubator board (One Stone)
(Adobe Creative Suite - Photoshop, Illustrator, Premiere)
